Abstract Guidelines

Poster Abstract Applications

We welcome abstract submissions for *poster presentations* (to be presented as posters during poster sessions) based on the tracks below:

Abstracts to posters:

1. Quality assurance in public health laboratories
2. Computational tools for pathogen surveillance
3. Infrastructure to enable public health pathogen genomics in resource-limited settings
4. Harmonising pathogen data collection
5. Priority pathogens
6. Ethical data sharing during a pandemic
7. One health
8. Any other priority areas in bioinformatics and genomics

All abstracts must be in English. The use of nomenclature must be minimal. Acronyms and abbreviations must be spelled out in full at first use. Please do not include or reference any additional files, citations, links or graphics in the abstract.

One idea must be carried throughout the abstract. The abstract must have a continuous sentence flow indicative of an introduction, idea description or discussion and conclusion.

A title must be provided that does not exceed 20 words. The body of the abstract must be 300 words maximum.

Abstracts will be selected on a competitive basis. One person is allowed to submit one abstract.

Abstracts submissions

All abstracts must be submitted via the [submission form](#) on or before midnight (0000hrs UTC) on **15 September 2023.** If you are **applying for a travel grant**, please submit your poster by 14 August 2023 on or before midnight (0000hrs UTC).

Unless the deadline is extended for abstract applications, successful individuals will be emailed of the **outcome** on or before midnight (0000hrs UTC) on **15 September 2023.**

For any other enquiries relating to abstracts applications or abstract submissions, please email help@pha4ge.org
